

YEAR  
IN REVIEW

abundance of large fish in the ocean.

• **Rich Ruais**, executive director of the East Coast Tuna Association, leads a charge against midwater trawlers in the Northeast. Ruais organizes a coalition of interests and argues more observer coverage is necessary to measure bycatch onboard midwater trawlers.

• **Janie Thomas**, past president of Organized Fishermen of Florida and now an industry advocate with the Shrimp Producers Association in Fernandina Beach, Fla., makes

David Karwacki

waves when she and Mayport shrimper **Barb Hopton** dispute the state's plan for shrimp industry economic disaster relief funds as unfairly favoring big-boat operators. State legislators overseeing the plan send it back to shrimpers for reconsideration.

◀ **David Karwacki**, president of the Georgia Professional Crabbers Association, leads a successful revolt against drastic cuts in blue crab harvest days. Georgia crabbers organize quickly, raising formal and informal protests, signing a petition to the governor and securing the aid of key coastal legislators, and state resource officials backed off the plan.

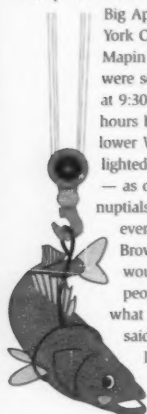

• "The longliners have a lot to fear from us," says **Dr. Robert Ovetz**, a campaigner with the Sea Turtle Restoration Project in California, in a guest column on [www.animalpeoplenews.org](http://www.animalpeoplenews.org) in December. This group and others have filed or threatened suits against the government and against grocery stores over swordfish longlining. "This is only the beginning," Ovetz writes.

• **President George Bush** visits the Ice Harbor dam in Washington, taking credit for the 15-fold increase of returning salmon but ignoring the fact that better ocean conditions and Clinton-era hatchery and habitat programs likely were responsible.

Fiberglass fish is a  
girl's best friend

Some women want diamonds. Others, like Penelope Mapin, will settle for a 600-pound fiberglass fish. According to Port Clinton, Ohio, Mayor Tom Brown, who performs weddings, Mapin asked only that she get married during the town New Year's Walleye Drop. The Walleye Drop is the Port Clinton equivalent to the

Big Apple dropping in New York City's Times Square. Mapin and fiancé Michael Ino were scheduled to tie the knot at 9:30, just two and a half hours before a crane would lower Wylie Walleye into a lighted net. The Walleye drop — as opposed to the Ino-Mapin nuptials — has become quite an event in Port Clinton, with Brown predicting there would from 6,000 to 10,000 people on hand. "From what I've heard so far," he said at one point, "there's a lot of rooms booked." We don't doubt it. Who needs Vegas?

## IRIDIUM

### IRIDIUM SATELLITE: The single solution for all your maritime communications needs.

The world's most comprehensive and cost-effective satellite communications system just got better. Iridium has added capabilities designed for emerging vessel monitoring requirements. Iridium is now the optimal satellite communication solution for the maritime market with more features, better coverage and lower pricing than any other system.

■ **NEW!** Two-way SMS from anywhere in the world (full 160 characters).\*

■ **NEW!** Embedded data connectivity for on-board equipment and sensors for vessel monitoring, ship alert and more.

■ Global coverage from pole-to-pole. No gaps or dead spots.

■ Low airtime pricing without zoned termination rates. No peak, roaming or long distance charges.

■ Specialized maritime equipment and value-added applications.

■ Crew calling includes easy-to-use scratch cards with holiday and monthly discounts.

■ Omni-directional antenna with no need for mechanical stabilization.

■ Optional PC kit for data access and email.

\* See Web site for details.

One System.  
Globally.

Contact Iridium at +1.480.752.5155 or +1.866.947.4348 (Toll Free U.S. and Canada) or by visiting us at [www.iridium.com](http://www.iridium.com)

## KOLSTRAND

The Fisherman's Supplier Since 1929

**Kolstrand 24" Offshore Haulers:**  
-Fabricated and galvanized steel frame  
-Heavy duty cast iron sheaves & gear box  
-Roller Stator hydraulic motors  
-Bronze cookie cutters  
-SS Fairlead rollers  
-Line pulls to 3000 lbs

### REPAIRS

**ALL EQUIPMENT INCLUDING**  
Nordic\*, Marco\*,  
Kinematics\*, Rowe\*  
& more...

### Pot Launchers and Repairs

-Heavy duty 5 x 5 3/8" square tube steel construction  
-4" bore with 2" 17-4 SS rod hydraulic cylinders  
-2 cylinders for shaking and 2 cylinders for launching  
-Built to fit your crab pots or cod

### Crab Blocks:

**10" - 38"**  
-Line pulls from 500-10,000 lbs and more  
-Available with SS or bronze shelves

**Other Reel/Drums:**  
All types available:  
Longline  
Gillnet  
Herring Shakers

Complete Custom Machine and Fabrication Shop.

**YOUR HYDRAULIC HEADQUARTERS**

### Coilers:

-Coils any size line with ease  
-Aluminum construction  
-SS Hinges  
-Coiling rate of 630 fpm  
-Bottom edge of door raised for easy opening & closing

### Aluminum Anchor Winch:

-Available in 4 diameters: 12, 14, 16 & 18  
-Available in widths 12-20  
-Lightweight with stainless steel shaft  
-S PK-4 Green 4-way Valve allows for power out, line spool & brake

Circle Reader Inquiry #36

## 250,000 Passengers and 70,000 Vehicles Depend on the Washington Island Ferry Line and Fernstrum Gridcooler® Keel Coolers

"We've had Fernstrum Standard Single Pass Gridcooler® keel coolers on our vessels for over 30 years. They've held up year around through extensive winter service in Lake Michigan ice as well as many hours of summer operation, and are still providing excellent service, without incident.

When we built our newest ferry in 2003, we didn't even consider using another brand of keel cooler. R.W. Fernstrum's quality, durable products and excellent service made them our automatic choice. And when you consider what a substantial keel cooler can cost in lost time and dollars, and maybe a dry docking, a Fernstrum Gridcooler® is the smart choice."

Dick Funtion  
President/General Manager  
Washington Island Ferry Line, Inc.  
Washington Island, Wisconsin
